GLBTI Retirement Association Incorporated

GLBTI Retirement Association Incorporated

Retirement is not always something people spend a lot of time thinking about. It's certainly not the topic of choice in your local nightclub or at the Sunday session! Yet, with some of the figures being reported regarding the growing ageing population in Australia, it is certainly something that needs careful consideration. Some of the stories we're now hearing about the way GLBTI people are being treated in some aged care facilities leave much to be desired and demonstrate GLBTI people need to ensure their needs will be met equally along with the wider ageing community. As we are seeing from international examples, the options for GLBTI retirement and aged care are far from limited and the expectations of GLBTI people are many and varied.

It is essential however, that we can ensure GLBTI people will be treated with the Equality, Dignity and Respect we have spent many years and much effort in achieving.

GRAI - Gay, Lesbian, Bisexual, Trans and Intersex Retirement Association Incorporated has been formed to ensure retirement and aged care for older GLBTI people is an issue that's taken seriously.

The objects of GRAI are:

To foster the creation of accessible and sustainable retirement living, aged care and community services that specifically cater for the needs of older people of diverse sexualities and gender identities;

To promote a greater understanding of health issues relating to older people of diverse sexualities and gender identities;

To promote the pursuit of excellence in health care, retirement and aged care services for older people of diverse sexualities and gender identities;

To promote retirement and aged care services and resources that foster confidence, self worth and well being for older people of diverse sexualities and gender identities; and

To raise awareness of discrimination and isolation faced by older people of diverse sexualities and gender identities in relation to provision of retirement and aged care accommodation and services.

We value:  
Dignity  
Diversity  
Respect  
Health  
Well-Being  
Self-Worth  
Excellence  
Community  
Choice
